Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-27 and 33, drawn to polynucleotides, polypeptides, vectors, host cells and methods of producing a polypeptide.

Group II, claim(s) 28-30, drawn to antibodies.

Group III, claim(s) 31 and 32, drawn to antagonists of a polypeptide.

Group IV, claim(s) 34 and 35, drawn to agonists of a polypeptide.

Group V, claim(s) 36, drawn to methods of screening for agonists and antagonists of a polypeptide.

Group VI, claim(s) 37, drawn to methods of diagnosis.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Pursuant to 37 C.F.R. 147(d), this Authority considers that the main invention in the instant application comprises the first recited product, namely the polynucleotide of SEQ ID NO: 1, and the first recited method of using that product,

Art Unit: 1646

namely in the process of producing the encoded polypeptide. Note that there is no method of making the polynucleotide. Also included in this group is the product made, namely the encoded polypeptide, and vectors and host cells comprising the polynucleotide. Further pursuant to 37 C.F.R. 1.475 (b)-(d), the ISA/US considers that the materially and functionally dissimilar products of Groups II, III and IV and the additional methods Groups V and VI do not correspond to the main invention. This Authority therefore considers that the several inventions do not share a special technical feature within the meaning of PCT Rule 13.2 and thus do not relate to a single general inventive concept within the meaning of PCT Rule 13.1.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
